

Future of Health Care

Rapid change is taking place in health care delivery across the country. What does Connecticut need to do to be ahead of the curve? The hosts of this event envision a Connecticut that plays a lead role in innovations that improve health care access, outcomes, and efficiency. Expert speakers will provide insight into what the future of health care in Connecticut and the U.S. will look like. We hope they will inspire bold thinking and innovative action.

September 26, 2019

Marriott Hartford Downtown
8:00 a.m. – 3:00 p.m.

Hosted by
